

# Life Science Field Trips

at the Grace Foundation of Northern California

As a working ranch that provides rescue, rehabilitation and sanctuary to over 100 horses on 600 acres, The Grace Foundation is able to offer unique learning experiences to children in grades 3-6.

*Hands-on one day field trip incorporating State Science Standards for grades 3-6*

- Plant Structure
- Water Cycle
- Local Ecosystem
- Fur, Feathers, Skin and Nails
- Heart and Muscles
- Recycling/Green

*Other activities which are covered in this one day field trip*

- Horsemanship
- Empathy
- Animal Behavior
- Team Building
- Life Skills
- Volunteerism

This extensive hands-on curriculum was developed by Veterinary Medicine Extension, University of California, Davis "Youth Development through Veterinary Science" and The Grace Foundation of Northern California
